NICOLE GALLOWAY, CPA **Missouri State Auditor**

Honorable Jeremiah W. (Jay) Nixon, Governor
and

John Mollenkamp, Acting Director
Department of Revenue
Jefferson City, Missouri

and
Doug & Cheri LLC, Contract Agent
Marshall Contract License Office
Marshall, Missouri

We have audited certain operations maintained and established by the Marshall Contract License Office, as provided by Section 136.055, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2016. The objectives of our audit were to:

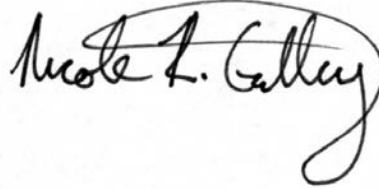

1. Evaluate the office's internal controls related to handling of various fees and tax transactions.
2. Evaluate the office's compliance with certain contractual and statutory provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Department of Revenue's management and was not subjected to the procedures applied in our audit of the contract office.

For the areas audited, we identified (1) a deficiency in internal controls, and (2) no significant noncompliance with contractual or statutory provisions. The accompanying Management Advisory Report presents our finding arising from our audit of the Marshall Contract License Office.

Management Advisory Report - State Auditor's Finding

**1. Accounting
Controls and
Procedures**

The license office needs to improve controls and procedures over monies collected. For the year ended June 30, 2016, the office collected and remitted to the DOR approximately \$5.3 million in taxes and fees.

The license office did not always accurately record the method of payment (cash, check, or credit card) in the accounting records and did not reconcile the composition of monies received to deposits. We reviewed receipt transactions processed in the office from December 15 to December 17, 2015, and performed a cash count on April 15, 2016. Our review determined the composition of deposits did not agree to the composition of receipts recorded for the December 17, 2015, and April 15, 2016, deposits. We identified credit card payments recorded as check and/or cash payments. In addition, the license office did not record the method of payment on a manual receipt slip issued for a driving record purchase on December 16, 2015. The license office issues manual receipt slips for these transactions because they are processed outside of the computerized system.

DOR official procedures for license offices indicate the composition of monies received should be reconciled to the accounting records and to deposits. Any differences identified as part of this work should be reviewed to ensure proper handling of monies received.

Recommendation

The license office ensure the correct method of payment is recorded in the accounting records and the composition of monies received is reconciled to the accounting records and to deposits, and differences identified from the reconciliation process are appropriately reviewed. In addition, the license office should ensure the method of payment is recorded on all manual receipt slips.

Auditee's Response

The Marshall License Office will work to ensure all methods of payment are recorded correctly, and when an error is made the correct payment will be noted on the transaction audit copy. In the driver's license system, where there is no paper work for each transaction, the clerks will record any incorrectly entered payment amounts and these corrections will be marked on the Listing Sheet report each day by the clerk who closes the shipment. All clerks have been instructed to ensure that the payment type be marked on the manual receipt slips.

Organization and Statistical Information

Pursuant to Section 136.030(2), RSMo, the Department of Revenue (DOR) has the authority and responsibility for the collection of motor vehicle registration fees, driver license fees, motor vehicle sales and use tax, and all other taxes. Pursuant to Section 136.055, RSMo, the director of the DOR has appointed 177 contract agents to operate contract license offices. This section also provides that the state auditor may audit the contract license offices. The DOR, License Office Bureau, under the management of the Motor Vehicle and Driver Licensing Division, is responsible for administering contract license offices throughout the state.

The contract license offices are awarded through a competitive bidding process, as required by Section 136.055.2, RSMo. This bidding process must give priority to organizations and entities (excluding action organizations) that are exempt from taxation (not-for-profit) under the Internal Revenue Code, with special consideration given to organizations and entities that reinvest a minimum of 75 percent of the net proceeds to charitable organizations in Missouri. Priority must also be given to political subdivisions such as municipalities, counties, and fire protection districts. Prior to August 2013, contracts typically ran for a year, with three 1-year renewal periods. Starting in August 2013, contracts are typically for a period of 3½ to 5½ years. The contract may be canceled at the discretion of the DOR.

The contract license offices process transactions to issue titles for all Missouri motor vehicles, trailers, and marine craft; and issue and sell a wide-range of standard, personalized, and specialty license plates that are classified into five major categories: passenger, truck, trailer, motorcycle, and bus. In addition, the contract license offices process transactions to issue five basic types of driver licenses: Intermediate License (GDL); Class F (Operator); Class E (For-Hire); Class A, B, and C (Commercial); and Class M (Motorcycle). Customers may also register with Selective Service, add endorsements or restrictions to licenses, and register to vote.

The contract agents do not receive compensation from the DOR, but receive the following fees, allowed by Sections 136.055.1 and 301.140.4, RSMo, from customers for each type of transaction processed by the office.

Agent Fees

Transaction Type	Fee
License renewal	\$3.50 one year \$7.00 two year
