NICOLE GALLOWAY, CPA Missouri State Auditor

Honorable Eric Greitens, Governor and Board of Curators of the University of Missouri and Dr. Mun Y. Choi, President University of Missouri - System Administration Columbia, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2017-012, *University of Missouri System Administration* (rated as Fair), issued in March 2017, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

- 1. Identify audit report findings that require immediate management attention and any other findings for which follow up is considered necessary at this time, and inform the administration of the University of Missouri System Administration about the follow-up review on those findings.
- 2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by system administration and discussions with system administration to verify the status of implementation for the recommendations. Documentation provided by the system administration included payroll detail, new policies, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during February 2018.

Nicole R. Galloway, CPA State Auditor

University of Missouri System Administration Follow-Up Report on Audit Findings Status of Findings

1.1 Incentive Payments	The Board of Curators or System President approved \$819,000 in incentive payments to top executives and administrators, including the chancellors of the 4 system campuses, for their performance during the years ended June 30, 2014 and 2015. An additional \$359,000 were paid in incentive payments for the fiscal year 2017. The incentive payments were made in accordance with Board of Curators approved Collected Rules and Regulations (CCR) 20.130, which allows the President to develop a pay system to facilitate recruitment, retention, and meaningful performance assessment of executive staff.
	Incentive payments were made without a formalized and clearly defined process of how the additional compensation was to be earned, giving the appearance of year-end bonuses, which may violate the Missouri Constitution. The majority of these incentive payments were paid to administrators without formal approval by the Board of Curators of the individual amounts. Also, additional compensation is not included in the individual's published salaries, thereby reducing compensation transparency to the public. While the majority of the individuals participating in the incentive program are notified of their participation in the program through an offer letter or employment contract, no documentation was provided for two associate vice president-level employees to show they were clearly notified prior to the beginning of the year they were participating in the program.
Recommendation	Ensure the incentive pay program utilizes specific and objective measurement criteria to determine when incentive payments have been earned, and ensure all individuals participating in the program are clearly designated and notified. The Board of Curators should also ensure all incentive criteria have been met, approve all such payments, and ensure reported salaries include all compensation.
Status	Implemented
	The incentive payment program has been eliminated as of March 10, 2017. In addition, incentive performance plans established through contracts for individuals reporting directly to the Board, including the System President, Board Secretary, and General Counsel, have been eliminated. No incentive payments have been issued since that date.
1.2 Chancellor Transition	With the approval of the then UM System President, the Columbia campus created a new position for the former Chancellor following his resignation in November 2015. The duties of the new position (Director of National Security Research Development) were not supported by the strategic plans of the UM System or the Columbia campus, the compensation for the position was significantly higher than other research administrators, and the Chancellor was allowed to keep additional compensation not required in his original contract.

Recommendation	Ensure compensation terms for administrators are in the best interest of the UM System, the universities, and taxpayers.		
Status	Implemented		
	The new position was eliminated and t an administrator at the university. T professor at the Columbia campus as r	The individual currently works as a	
1.3 Vehicle Allowances	Vehicle allowances paid to UM System executives appeared excessive and resulted in a lack of transparency in executive compensation. The method to calculate the vehicle allowances did not approximate the actual expenses incurred by the employees on behalf of the system. Rather, vehicle allowance amounts paid by the UM System were calculated to be equivalent to the system providing a leased luxury vehicle to each participating executive, including insurance and fuel. Fifteen positions received vehicle allowances during the year ended June 30, 2016.		
Recommendation	Ensure vehicle allowances are based on reasonable estimates of actual mileage, or reimburse executives based on actual miles traveled.		
Status	Partially Implemented		
	The UM System has stopped paying administrators who received them dur- system is phasing out two additional their contracts come up for renewal du- allowances will continue for 5 position General Counsel, and 2 campus Ch compensation contracts. The vehicle compensation negotiations and not ba mileage or on actual miles traveled as the monthly average vehicle allowanc allowances will be less than the amour	ring the audit period. In addition, the administrators' vehicle allowances as uring calendar year 2018. The vehicle s (the Chief of Staff, System President, nancellors) as a component of their allowances were determined during sed on reasonable estimates of actual recommended.
