# Review of 2005 Property Tax Rates

Office Of The  
State Auditor Of Missouri  
Claire McCaskill

December 2005

**The following report contains certification information on taxing authorities throughout Missouri.**

---

State law requires the Missouri State Auditor to annually check all taxing jurisdictions throughout Missouri as to their compliance with the tax limitation provisions of Missouri's Hancock Amendment and with Section 137.073, RSMo. The following report shows whether or not a taxing jurisdiction has met its constitutional and statutory obligation to set an overall tax rate at a level approved by voters and within the bounds of limits set by Missouri's Constitution and the State Legislature.

**IMPORTANT:** The State Auditor's Office has no authority to determine or review individual tax assessments. Chapter 138, RSMo governs the appeals process for assessed valuations as they pertain to individual taxpayers.

All individual tax assessment matters are the responsibility of each county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

STATE AUDITOR'S REPORT

**CLAIRE C. McCASKILL**  
**Missouri State Auditor**

Honorable Matt Blunt, Governor  
and  
Members of the General Assembly  
Jefferson City, MO 65102

The State Auditor's Office is required to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether local governing boards have levied taxes in accordance with state law, and in particular, to determine whether local property tax rates have been adjusted to ensure that property reassessments are revenue neutral. Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2005, we received substantiating data and issued a finding on 4,824 property tax rates of 2,718 taxing authorities. Nine taxing authorities levied in excess of the tax rate certified resulting in approximately \$1,060,000 in excess tax levies.

Property taxes are often the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund our public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness and assessment practices is often eroded.

### **Taxing Authorities Generally Complied with State Property Tax Laws**

The State Auditor received substantiating data and reviewed 4,824 property tax rates for 2,718 taxing authorities. Of the rates reviewed, 525 were debt service levies, 154 were new property tax rates approved by voters and, 53 were for existing property tax rates that were increased by voter approval. The remaining 4,092 levies reviewed are general types of levies. Nine taxing authorities (approximately 0.25% of all taxing authorities) levied a non-compliant tax rate. While varying factors contributed to these violations, six of the nine non-compliant rates (67%) and \$1,035,239 of the \$1,061,303 excess revenue levied (98%) were from St. Louis County. See Table 1.2 below for a listing of the non-compliant tax rates levied. Taxing Authorities wholly in St. Louis County were required to use the four-rate system of levying a separate rate for each subclass of property. Uncertainty with the implementation of the four-rate system apparently originates from a lack of statutory guidance on the handling of elections, recoupments, voluntary reductions, and debt service levies which were not addressed by the legislation implementing the four-rate system.

The following graphs illustrate the 5 year history of non-compliant rates and revenue.

### **Background**

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file data supporting the proposed property tax rates with the county, using forms prescribed by the Auditor. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

### **Review methodology**

The 2005 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Article X, Section 22 of the Missouri Constitution (commonly referred to as the Hancock Amendment). The tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of the tax rate ceiling is based on the assessed valuation for the entire area taxed by the taxing authority and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, our review of property tax rates begins with the prior year allowed revenue. This is the maximum amount of revenue a taxing

authority would have received in the prior year. Current year tax levies must be set to yield the same gross revenue as allowed in the prior year, in addition, an adjustment is made for additional revenue permitted for assessment growth that is the lower of, (1) the actual growth rate or, (2) the inflation rate, or (3) five percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also have an effect on the tax rate ceiling calculation. The county uses this rate to collect taxes on all property including new construction and improvements.

Voters may authorize increases beyond the set limits. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. The State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is generally viewed as reasonable if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

The total assessed valuation of a taxing authority that is submitted by the County Clerk or a representative of the taxing authority is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not review the assessed valuation of individual pieces of property, as Section 138, RSMo governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the County Assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease depending on the amount of the increase to produce substantially the same amount of revenue as allowed in the prior year. See *Appendixes IA & IB* for a more detailed summary of the changes in assessed valuation, by type of taxing authority and see *Appendixes IIA & IIB* for a more detailed summary of changes in tax rate ceilings, by type of taxing authority.

In addition, *Appendix III* is a map that provides a statewide geographical perspective of county valuation growth due to new construction growth and reassessment from 2004 to 2005. And *Appendix IV*, is a map that reflects the inflationary change in each county's valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred.

### **Organization of Report Content**

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright, followed by the City of St. Louis). When a taxing authority is located in more than one county, it is listed under the primary county only.

The assessed valuations presented for taxing authorities, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for the school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling.

Sales tax rollbacks required by law for some county levies were not reviewed as part of this report. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review where it appeared the district waived all or part of the rollback without voter approval to generate additional local revenues. *Appendix XII* lists the 469 schools with full or partial waivers of Proposition C (sales tax) reductions. These school districts obtained voter approval to not roll back part or all of the required amount for Proposition C. The list includes 53 schools with partial Proposition C waivers and 416 schools with full Proposition C waivers.

**Notable Issues in 2005**

No changes in legislation or procedures occurred during 2005, however, there was an increase in non-compliant rates this year. The majority of the taxing authorities levying non-compliant rates were in St. Louis County. It appears there is some confusion with utilizing the four-rate system of levying a separate tax rate for each subclass of property. Taxing authorities in St. Louis County are continuing to learn the four-rate system which was implemented in 2003 by legislation. Questions with the four-rate system include: handling of elections, recoupments, voluntary reductions and debt service.

Taxing authorities in St. Louis County that levy a tax under the four-rate system have questions about how to process elections where voters approve an increase to the tax rate. In the absence of statutory guidance specifically addressing ballots posed under the four-rate system, the State Auditor's Office has reviewed all ballots under the assumption that all elections apply to all property.

There were 42 taxing authorities that recalculated and recouped lost revenues for 66 levies for the prior three years as allowed by the statutes. The majority of recoupment rates stem from a large protest of taxes from St. Louis area commercial property tax payers, which affected most taxing authorities in that county. The legislation implementing the four-rate system has not addressed the recalculation and recoupment of property tax rates that are allowed. As noted in Table 1.2 below, there was a dispute with two of the school districts in St. Louis County that had a recoupment of rates where an election occurred during the recoupment period. This dispute caused by the lack of statutory guidance resulting in both schools levying non-compliant tax rates totaling \$997,307 (92% of non-compliant revenue).

Numerous questions were presented regarding taxing authorities levying a rate(s) under the four-rate system concerning voluntarily reductions. Table 1.1 summarizes voluntary reductions taken under the four-rate system. Although the majority of levies imposed under the four-rate system did not voluntarily reduce their levy, under current statutory guidance available any and all voluntary reductions are allowable.

**Table 1.1 Summary of Voluntary Reductions Taken Under the Four-Rate System**

Description	# of Levies	Percentage

## Tax Rates Levied in Excess of the Tax Rate Certified

Table 1.2 lists 9 taxing authorities that levied 11 tax rates in excess of the legally permissible tax levy as provided by state law. Excess revenues collected totaled \$1,061,303.

(1)The Certified Rate column represents the rates determined to be legally permissible based on the information submitted by the taxing authority. The excess tax revenue is computed by multiplying the excess tax rate (actual rate levied – certified rate) by the assessed valuation and dividing by 100.

(2)Also levied an excessive tax rate in 2001 - 2005.

(3)Also levied an excessive tax rate in 1997 – 2005.

(4)Brentwood School District & Clayton School District dispute the State Auditor's implementation of the Missouri Attorney General's (AG) Opinion 107-2003 as applied to the recalculation and recoupment of lost revenues from the 2003 tax rates. Both schools had a voter approved increase to their tax rate that were added to the tax rate ceiling valid on the date of the election as per the AG Opinion 107-2003, but both schools contend that the increase should be added to the revised tax rate that would have been valid on the date of the election.

(5)Also levied an excessive tax rate in 2001, 2003 - 2005.

(6)The ballot passed by the Christian County Senior Services stated, .05 cents and was levied as 5 cents in 2001. In 2002, the tax rate ceiling was revised to reflect the amount of \$0.0005 allowed by the ballot language. The correct interpretation of the ballot language is being disputed by the district. The district levied \$0.0462 in 2005 which resulted in additional revenues of \$330,021.

LEGEND:

- \*\* Levy did not exist in the given year or was not certified due to insufficient substantiating data
- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy, see Appendix X for 2005 levies.
- B A voter approved increase to an existing levy, see Appendix XI for 2005 levies.
- C Levy includes a recoupment rate authorized by state law.
- D Levied a tax rate in excess of the legally permissible tax levy as provided by state law, see Results - Table 1.2 for 2005 levies.
- E The ballot passed by Christian County Senior Services stated, ".05 cents" and was levied as 5 cents in 2001. In 2002, the tax rate ceiling was revised to reflect the amount of \$.0005 allowed by the ballot language.
- F Article X, Section 11(g) of the Missouri Constitution allows the school board of the Kansas City 33 School District to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was \$4.96). The rate so established may be changed from year to year by the school board of the district.

NOTE:

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both taxing authority and the county or counties in which the tax rate is levied.

Assessed Value column presents only the assessed valuation that the property tax is levied against.

In 2003, all political subdivisions in St. Louis County were required to levy a separate tax rate for each subclass of property per section 137.073 RSMo as revised by House Bill 1150 passed in 2002. This statute and the tax rate calculation was revised again by Senate Bill 960 (SB960) passed in 2004. Due to SB960's effective date of October 1, 2004 for all political subdivisions not within St. Louis County, all political subdivisions partially in St. Louis County and partially in another county levied a single tax rate applied to all property in 2004. Political subdivisions partially in St. Louis County and partially in another county(ies) were required by SB 267 passed in 2005 to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions of SB 960.

- C Levy includes a recoupment rate authorized by state law.
- D Levied a tax rate in excess of the legally permissible tax levy as provided by state law, see Results - Table 1.2.
- E Levy calculation included a recoupment rate authorized by state law, but ultimately levied a tax rate in excess of the legally permissible tax levy as provided by state law, see Results - Table 1.2.

NOTE:

This Appendix only contains levy information for political subdivisions wholly in St. Louis County. Political subdivisions partially in St. Louis County and partially in another county(ies) were required by Senate Bill 267 passed in 2005 to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions of Senate Bill 960.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both taxing authority and the county or counties in which the tax rate is levied.

Assessed Value column presents only the assessed valuation that the property tax is levied against.

LEGEND:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy, see Report No. 2004-102.  
 B A voter approved increase to an existing levy, see Report No. 2004-102.  
 C Levy includes a recoupment rate authorized by state law.  
 D Levied a tax rate in excess of the legally permissible tax levy as provided by state law, see Report No. 2004-102.

NOTE:

This Appendix only contains levy information for political subdivisions wholly in St. Louis County. In 2003, all political subdivisions in St. Louis County were required to levy a separate tax rate for each subclass of property per section 137.073 RSMo as required by House Bill 1150 in 2002. This statute and the tax rate calculation was revised again by Senate Bill 960 (SB 960) passed in 2004. Due to SB 960's effective date of October 1, 2004 for all political subdivisions not within St. Louis County, all political subdivisions partially in St. Louis County and partially in another county levied a single rate applied to all property in 2004.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both taxing authority and the county or counties in which the tax rate is levied.

Assessed Value column presents only the assessed valuation that the property tax is levied against.

LEGEND:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy, see Report No. 2003-124.
- B A voter approved increase to an existing levy, see Report No. 2003-124.
- C Levy includes a recoupment rate authorized by state law.
- D Levied a tax rate in excess of the legally permissible tax levy as provided by state law, see Report No. 2003-124.

NOTE:

This Appendix contains levy information for all political subdivisions in St. Louis County. In 2003, all political subdivisions in St. Louis County were required to levy a separate tax rate for each subclass of property per section 137.073 RSMo as revised by House Bill 1150 passed in 2002.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both taxing authority and the county or counties in which the tax rate is levied.

Assessed Value column presents only the assessed valuation that the property tax is levied against.

Total Revenue Generated from Debt Service Levies				\$497,817,880

LEGEND:

- A The tax rate ceiling calculated equals zero because the bank balance reported by the taxing authority is sufficient to meet the bond's current needs.  
 B The taxing authority voluntarily reduced the debt service levy to zero.

NOTE:

This Appendix contains levy information for all debt service levies reported by taxing authorities in 2005.

Assessed value column presents only the assessed valuation that the property tax is levied against.

The revenue generated is computed by multiplying the tax rate by the assessed valuation and dividing by 100.

## NOTE:

The tax rates listed above were approved by voters at an election held after 2004 tax rates were set and, thus, 2005 was the first year the additional voter approved increases were levied.

Assessed valuation column presents only the assessed valuation that the property is levied against.

The revenue generated is computed by multiplying the tax rate by the assessed valuation and dividing by 100.

## NOTE:

All school districts listed above have a voter approval for either a full or partial. If a school district is not included on this list, then the school district does not have a voter approved proposition C waiver.

A partial waiver allows a school district to partially waive its required proposition C (sales tax) reduction to the extent necessary to collect \$2.7500 or waive the amount stated on the ballot. A full waiver allows a school district to reduce its required proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
