CITIZENS SUMMARY

Findings in the review of Federal Forfeiture Audits of Law Enforcement Agencies

Background

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to acquire an independent audit of the federal seizures and the proceeds received therefrom and provide this audit to their respective governing bodies, the Missouri Department of Public Safety and the State Auditor's office. State law forbids the Missouri Department of Public Safety from issuing funds to any law enforcement agency that fails to abide by these requirements, and it is a Class A misdemeanor for a law enforcement agency to intentionally or knowingly fail to comply with the statutory requirements.

Reporting

For the year ended 2010, the Department of Public Safety reported 696 law enforcement agencies. Of these, 43 filed the required 2010 audit report with the State Auditor's office, and another 425 indicated they did not participate in the program, so no audit was required. An additional 17 reports were filed for other years. A total of 47 participating agencies failed to file a report, and the remaining 164 agencies did not respond to our inquiries and neither filed an audit report nor stated they did not participate in the program.

State law does not specify the manner in which federal forfeiture monies should be reported and does not specify at what point in time an audit is required. The law does not provide if the audit should be performed when property is seized, when proceeds are received, or when proceeds have been expended, or if an audit should be conducted every year in which there is a balance remaining of federal forfeiture monies. Finally, Section 513.653.1, RSMo, allows the cost of the audit of federal forfeiture seizures to be paid out of the proceeds, but it is not clear whether federal law allows for this.

Because of the compound nature of this report, no overall rating is provided.

THOMAS A. SCHWEICH

Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The purpose of this review was to determine if law enforcement agencies properly filed reports with the State Auditor's office for the year ended in 2010 in compliance with Section 513.653.1, RSMo. This law requires law enforcement agencies involved in using the federal forfeiture system under federal law to acquire an independent audit of the federal seizures and the proceeds received therefrom and provide this audit to their respective governing body, the Missouri Department of Public Safety, and the State Auditor's office.

The Department of Public Safety reported 696 law enforcement agencies for 2010 in the State of Missouri. As of March 19, 2012, 43 audit reports were filed with the State Auditor's office for the year ended 2010. An additional 10 reports were received for the year ended 2009 and 7 reports were received for the year ended 2011. A total of 47 participating agencies failed to file a report. In addition, 425 law enforcement agencies indicated they did not participate in this program. The remaining 164 agencies did not respond to our inquiries as to whether they participate in the program and did not file a report.

In addition, the following concerns were noted:

1. State law does not specify how federal forfeiture monies should be reported. The majority of the reports submitted were of the financial statements of the respective governmental agency (city or county), not just the forfeiture monies. There was inconsistency in the reporting of federal forfeiture monies. Report presentation included identifying the federal forfeiture monies on the Schedule of Expenditures of Federal Awards, as a line item in budget to actual presentations, or in notes to the financial statements.
2. State law does not specify when an audit is required. The law does not provide if the audit should be performed when an agency seizes the property, when an agency has received proceeds from the federal government, or when the proceeds have been expended. It is also not clear if an audit is required every year there is a balance remaining of federal forfeiture monies. Federal audit requirements state that audits are required when total federal expenditures of an entity are at least \$500,000.

3. Section 513.653.1, RSMo, allows the cost of the audit of federal forfeiture seizures to be paid out of the proceeds of such federal forfeitures. However, it is not clear this is an allowable expenditure of these monies under federal law.

Chapter 513

Executions and Exemptions

Section 513.653

Peace officers using federal forfeiture system, audit of federal seizure proceeds--copies provided to whom--violation, penalty.

513.653. 1. Law enforcement agencies involved in using the federal forfeiture system under federal law shall be required at the end of their respective fiscal year to acquire an independent audit of the federal seizures and the proceeds received therefrom and provide this audit to their respective governing body and to the department of public safety. A copy of such audit shall be provided to the state auditor's office. This audit shall be paid for out of the proceeds of such federal forfeitures. The department of public safety shall not issue funds to any law enforcement agency that fails to comply with the provisions of this section.

2. Intentional or knowing failure to comply with the audit requirement contained in this section shall be a class A misdemeanor, punishable by a fine of up to one thousand dollars.
