**Missouri State Auditor** 

March 2005

Shelby County, Missouri

Years Ended December 31, 2003 and 2002

Report no. 2005-15 auditor.mo.gov

<u>IMPORTANT</u>: The Missouri State Auditor is required by state law to conduct audits once every 4 years in counties, like Shelby, that do not have a county auditor. In addition to a financial and compliance audit of various county operating funds, the State Auditor's statutory audit covers additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

This audit of Shelby County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The former Sheriff authorized the payment of additional compensation totaling \$1,192 to five employees. Documentation to support these payments was not adequate and consisted only of statements signed by the former Sheriff that the payments were for "extra duty," but did not include any documentation of extra time worked beyond that recorded in applicable time sheets. These payments appear questionable and could represent additional compensation for services previously rendered, which is prohibited by the Missouri Constitution.
- The county is paying the medical insurance and providing other benefits, such as awarding holidays and leave time, to a part-time employee of the County Collector's office. While the County Commission and County Collector approved the payment of this employee's medical insurance, there is no documented approval to provide the other benefits. The county's personnel manual states that a part-time employee is not eligible for employee benefits unless specifically negotiated with the County Commission and the office holder for whom the employee works.
- The county should implement improvements to its computer systems used for assessment and property tax information and for budgetary and accounting information. The county should implement password and other procedures to limit access to the various programs and information and a security system to detect or prevent incorrect log-on attempts. In addition, backup disks of information should be prepared more frequently and should be stored at an off-site location.

The audit also includes recommendations regarding county road and bridge maintenance plans, general fixed assets, and schedule of expenditures of federal awards, as well as recommendations to improve accounting controls and procedures for the County Collector, Prosecuting Attorney, and Health Center.

State Auditor's Reports

# INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

To the County Commission and Officeholders of Shelby County, Missouri

We have audited the accompanying Statements of Receipts, Disbursements, and Changes in Cash - Various Funds and Comparative Statement of Receipts, Disbursements, and Changes in Cash - Budget and Actual - Various Funds of Shelby County, Missouri, as of and for the years ended December 31, 2003 and 2002. These financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1 to the financial statements, these financial statements were prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Shelby County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31, 2003 and 2002, on the basis of accounting discussed in Note 1.

In accordance with *Government Auditing Standards*, we also have issued our report dated October 28, 2004, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Shelby County, Missouri, and was not subjected to the auditing procedures applied in the audit of the financial statements referred to above. Accordingly, we express no opinion on the information.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and Officeholders of Shelby County, Missouri

We have audited the financial statements of various funds of Shelby County, Missouri, as of and for the years ended December 31, 2003 and 2002, and have issued our report thereon dated October 28, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# Compliance

As part of obtaining reasonable assurance about whether the financial statements of various funds of Shelby County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of various funds of Shelby County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition

in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information and use of the management of Shelby County, Missouri, and other applicable government officials. However, pursuant to Section 29.270, RSMo 2000, this report is a matter of public record and its distribution is not limited.

The accompanying Notes to the Financial Statements are an integral part of this statemer

Notes to the Financial Statements

## SHELBY COUNTY, MISSOURI NOTES TO THE FINANCIAL STATEMENTS

## 1. <u>Summary of Significant Accounting Policies</u>

#### A. Reporting Entity and Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of various funds of Shelby County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

#### B. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

#### C. Budgets and Budgetary Practices

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 2000, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the DARE Fund and Tax Maintenance Fund for the year ended December 31, 2002.

Section 50.740, RSMo 2000, prohibits expenditures in excess of the approved budgets. However, expenditures exceeded budgeted amounts for the following funds:

| <u>Fund</u>                          | Years Ended December 31,                |  |  |  |
|--------------------------------------|---|--|--|--|
|                                      | • |  |  |  |
| Prosecuting Attorney Training Fund   | 2002                                    |  |  |  |
| Chemical Emergency Preparedness Fund | 2003                                    |  |  |  |
| Associate Circuit Interest Fund      | 2003 and 2002                           |  |  |  |
| Parent Education Fund                | 2003                                    |  |  |  |
| Law Library Fund                     | 2002                                    |  |  |  |
| POST Fund                            | 2003                                    |  |  |  |
| DARE Fund                            | 2003                                    |  |  |  |
| Health Center                        | 2002                                    |  |  |  |

#### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 2000, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund. However, the county's published financial statements for the years ended December 31, 2003 and 2002, did not include the Health Center Fund.

#### 2. Cash

Section 110.270, RSMo 2000, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo 2000, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's and the Health Center Board's deposits at December 31, 2003 and 2002, were entirely covered by federal depositary insurance or by collateral securities held by the county's or the Health Center Board's custodial banks in the county's or the board's name.

# 3. Prior Period Adjustment

The Prosecuting Attorney Bad Check Fund's cash balance at January 1, 2002, as previously stated, has been decreased by \$1,180 to reflect the balance of the Prosecuting Attorney Income Tax Fund, which was previously reported together but is now reported separately.

Schedule

# SHELBY COUNTY, MISSOURI SCHEDULE OF FINDINGS YEARS ENDED DECEMBER 31, 2003 AND 2002

This schedule includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Follow-up on Prior Audit Findings for an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

# SHELBY COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Shelby County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2001.

01-1. The county did not adopt budgets for some funds.

#### Recommendation:

The county adopt a budget for all funds.

#### Status:

Implemented in 2003.

01-2. Warrants were issued in excess of approved budgets in some funds.

#### Recommendation:

Warrants not be issued in excess of budgeted funds.

#### Status:

Partially implemented. While some improvement has been made, actual disbursements exceeded budgeted disbursements for some smaller funds during 2003 and 2002. Although not repeated in the current report, the recommendation remains as stated above.

01-3. The county's published financial statements did not include some funds.

#### Recommendation:

The county include all funds in the published annual financial statements.

#### Status:

Partially implemented. All county funds, except for the Health Center Fund, are included in the published financial statements. See Management Advisory Report finding number 7.

MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -State Auditor's Findings

# SHELBY COUNTY, MISSOURI MANAGEMENT ADVISORY REPORT -STATE AUDITOR'S FINDINGS

We have audited the financial statements of various funds of Shelby County, Missouri, as of and for the years ended December 31, 2003 and 2002, and have issued our report thereon dated October 28, 2004.

In addition, we have audited the operations of elected officials with funds other than those presented in the financial statements to comply with the State Auditor's responsibility under Section 29.230, RSMo 2000, to audit county officials at least once every 4 years. The objectives of this audit were to:

- 1. Review the internal controls over the transactions of the various county officials.
- 2. Review compliance with certain legal provisions.

Our methodology to accomplish these objectives included reviewing accounting and bank records and other pertinent documents; interviewing various personnel of the county officials, as well as certain external parties; and testing selected transactions.

In addition, we obtained an understanding of internal controls significant to the audit objectives and considered whether specific controls have been properly designed and placed in operation. However, providing an opinion on internal controls was not an objective of our audit and accordingly, we do not express such an opinion.

We also obtained an understanding of legal provisions significant to the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting significant instances of noncompliance with the provisions. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion.

Our audit was conducted in accordance with applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and included such procedures as we considered necessary in the circumstances.

This Management Advisory Report (MAR) presents any findings arising from our audit of the elected county officials referred to above. In addition, this report includes any findings other than those, if any, reported in the accompanying Schedule of Findings. These MAR findings resulted from our audit of the financial statements of Shelby County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

## 1. Payroll and Personnel Policies and Procedures

The County Commission has not documented its approval for fringe benefits provided to a part-time employee of the County Collector's office, and additional compensation was paid to some Sheriff's employees which was not properly documented.

A. The county is paying the medical insurance and awarding holidays and leave time to a seasonal part-time employee of the County Collector's office. The county's personnel manual states a person employed on a limited basis is not eligible for employee benefits unless specifically negotiated with the County Commission and the office holder for whom they work. The County Commission and County Collector formally approved the payment of medical insurance for employee; however, there is no documentation that the County Commission and County Collector approved the awarding of holidays and leave time. The County Commission approved a one time payment of sick leave, and since then, the employee has earned vacation and sick leave.

To ensure compliance with the county's personnel manual and to help avoid misunderstandings, the County Commission and County Collector should document their approval of any benefits provided to the part-time employee.

B. The former Sheriff authorized the payment of additional compensation totaling \$1,192 during the audit period to five employees. These payments were made from the Sheriff's Civil Fees Fund. Documentation to support these payments was not adequate and consisted of statements signed by the former Sheriff that the payments were for "extra duty", but did not include any documentation of extra time worked by these employees beyond that recorded on their time sheets. While payroll taxes were withheld and these payments were reported on W-2 forms, these payments appear questionable and could represent additional compensation for services previously rendered, which is prohibited by Article III, Section 39 of the Missouri Constitution.

# **WE RECOMMEND** the County Commission:

- A. And the County Collector document their approval for benefits provided to the parttime employee, as required by the county's employee manual.
- B. And the Sheriff discontinue paying compensation to employees unless it is supported by time and attendance records.

#### **AUDITEE'S RESPONSE**

A. This situation has already been implemented. A new personnel manual has been written and put in place as of January 2005. Part-time employees will not receive benefits. Any future deviation from the personnel manual will be documented as recommended.

B. As of February 2005, the Sheriff will supply time and attendance records for all employees to support all payroll expenses.

# 2. Computer Controls

The offices of the County Assessor and County Collector use a network computer system to maintain assessed valuation and property tax information. In addition, the County Clerk uses a commercial accounting software on the computer system to maintain general ledger accounting, budgetary accounting and reporting, cash disbursements, cash receipts, and payroll functions. Passwords or other procedures are not used to limit access, a security system to prevent or detect incorrect log-on attempts has not been established, and backup disks are only prepared weekly and are not stored at an off-site location.

A. Passwords and other procedures are not in place to limit access to the various data files and programs utilized by the county officials. Lack of such passwords and procedures provides potential for personnel to make undetected and unauthorized changes to information.

Since access to various information is not adequately restricted, unauthorized changes could be made to programs and/or data files without the changes being detected. For example, unauthorized changes could be made to assessed valuation amounts, payments of taxes, payroll check amounts, and receipts and disbursements by officials or employees in offices other than the one specifically responsible for such duties.

To establish individual responsibility, as well as help preserve the integrity of computer programs and data files, access to information should be limited to authorized individuals. A system of passwords and other procedures should be used to properly restrict access to only those data files and programs individuals need to accomplish their jobs. A unique user ID and password should be assigned to each user to log onto the network. Passwords should be kept confidential and changed periodically to help limit the effect of unauthorized access to computer files.

- B. A security system is not in place to detect or prevent incorrect log-on-attempts. An unauthorized individual could try an infinite number of times to log on the system, and if successful, have unrestricted access to programs and data files. To help protect computer files, a security system should be implemented to stop incorrect log-on attempts after a certain number of tries. Such a system should produce a log of the incorrect attempts which should be reviewed periodically by an authorized official.
- C. Backup disks of information, which could be used to provide a means of recreating destroyed master file information, are only prepared weekly. As a result, damage to these computer systems could make it difficult to retrieve or recreate lost program modifications and or data.

In addition, backup disks are not stored at a secure off-site location. Failure to store the computer backup disks in a secure off-site location results in the backups being susceptible to the same damage as the original data on the computer. Preparation of backup disks, preferably on a daily basis or at least 2-3 times a week, along with off-site storage, would provide increased assurance that methods are available to restore any lost data or program modifications.

#### **WE RECOMMEND** the County Commission:

- A. Establish procedures to restrict access to computer files, including the use of unique passwords for the network and computer programs, to authorized individuals.
- B. Implement a security system to detect and report incorrect log-on attempts after a certain number of tries.
- C. Ensure backup disks are prepared more frequently and stored in a secure, off-site location.

#### **AUDITEE'S RESPONSE**

- A. A procedure for passwords on network computers between the County Clerk and the County Treasurer has already been implemented. The County Clerk has contacted our computer service person regarding passwords between the County Collector, County Clerk, and County Assessor. We will work with him on implementing this.
- *B.* This will be reviewed by our computer service person and implemented.
- C. Backup disks are now being done three days a week for the County Clerk's office. Backups will be done more frequently for the assessment and property tax system. Copies will be stored in the bank vault across the street from the courthouse.

# 3. Road and Bridge Maintenance Plan

A formal maintenance plan for county roads and bridges has not been prepared. A maintenance plan should be prepared in conjunction with the annual fiscal budget and include a description of the roads and bridges to be worked on, the type of work to be performed, an estimate of the quantity and cost of materials needed, dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be referred to in the budget message and approved by the County Commission. In addition, the County Commission should consider holding a public hearing to obtain input from county residents.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. A plan provides a means to continually and more

effectively monitor and evaluate the progress made in the repair and maintenance of roads and bridges throughout the year.

<u>WE RECOMMEND</u> the County Commission prepare and document a road and bridge maintenance plan at the beginning of the calendar year and periodically update the plan throughout the year. In addition, the County Commission should review the progress made in the repair and maintenance of roads and bridges to make appropriate decisions on future projects.

# **AUDITEE'S RESPONSE**

The County Commission will implement a written proposal regarding their plans for maintenance and road projects.

# 4. General Fixed Assets Records and Procedures

Procedures to account for county-owned property should be improved to ensure the applicable records are complete and accurate.

The County Commission or its designee is responsible for maintaining a complete, detailed record of county property. In addition, each county official or their designee is responsible for performing periodic inventories and inspections. The County Clerk is primarily responsible for maintaining fixed asset records; however, the County Clerk does not periodically reconcile equipment purchases with additions to the fixed asset records. Physical inventories were not being performed for assets assigned to some county officials, but this has recently been completed. In addition, the value of the county's buildings and grounds has not been included on the fixed asset listing.

In addition, the fixed asset records do not include information for some assets, such as serial number, make, model, identification number, acquisition by fund, acquisition date, and the date and method of disposal, and some assets are not numbered, tagged, or otherwise identified as county property.

Adequate general fixed asset records are necessary to secure better internal control over county property, meet statutory requirements and provide a basis for determining adequate insurance coverage on county property. Section 49.093, RSMo 2000, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual original value of \$250 or more and any property with an aggregate original value of \$1,000 or more. After the first inventory is taken, an explanation of material changes shall be attached to subsequent inventories. All remaining property not inventoried by a particular department shall be inventoried by the County Clerk. The reports required by this section shall be signed by the County Clerk. Property control tags should also be affixed to all fixed asset items to help improve accountability and to ensure that assets are properly identified as belonging to the county.

Similar conditions were noted in prior audit reports.

<u>WE AGAIN RECOMMEND</u> the County Commission establish written policies related to the handling and accounting for general fixed assets which include procedures to ensure compliance with state law. In addition, all fixed assets purchases and additions should be recorded as they occur, fixed asset purchases should be reconciled to additions on the inventory records, and all fixed assets should be tagged or identified as county-owned property.

# **AUDITEE'S RESPONSE**

The County Commission will establish a policy regarding procedures for fixed assets.

# 5. County Collector's Controls and Procedures

The County Collector handles approximately \$4 million annually in property tax collections. Reports of changes made to the tax records are not prepared. Partial payments are not deposited until the taxes are paid in full, and procedures over additions and abatements to the property tax books should be improved.

- A. A change report, which reflects changes to tax records, is not generated by the County Collector. As a result, after a change is made to a tax record there is no record of the information previously in the file. This reduces control over the collection of taxes and could result in a misstatement of collections or delinquent taxes going undetected.
- B. Partial payments are retained in the County Collector's vault and are not deposited until full payment is received. As of August 26, 2004, the County Collector held over \$700 in cash for partial payments. The County Collector documents the monies received by keeping the payments in separate envelopes with the taxpayers' names written on the envelopes.
  - To adequately safeguard receipts and reduce the risk of loss, theft, or misuse of funds, all monies received should be recorded and deposited intact daily or when accumulated receipts exceed \$100.
- C. Controls over property tax additions and abatements should be improved. The County Assessor prepares the documentation for all additions and abatements and the County Collector uses this documentation to make changes to the property tax system. At the end of the year, the County Collector presents total amounts by type of tax for additions and outlawed personal property taxes, as well as a detailed list of other abatements, to the County Commission for their review and approval.

Section 137.260, RSMo 2000, requires that the tax books only be changed by the County Clerk under order of the County Commission. Controls should be established so that the County Clerk periodically reconciles all additions and abatements to changes made to the property tax books and charges these amounts to the County Collector. Further, all changes to the tax books should be approved periodically (at least monthly) by the County Commission.

Similar conditions were noted in our prior report.

# **WE AGAIN RECOMMEND** the County Collector:

- A. Review the possibility of generating periodic change reports. In addition, the change reports should be reviewed by an independent party and any unusual items investigated.
- B. Record all monies received for partial payments and deposit intact daily.
- C. And the County Commission ensure additions and abatements are prepared by the County Assessor, retained by the County Clerk, and periodically reconciled to property tax book charges and credits. The County Commission should review and approve all additions and abatements on a timely basis and the County Clerk should make the necessary changes to the tax books.

# **AUDITEE'S RESPONSE**

- A. I have spoken to my computer programmer and according to him, a change report is not feasible. Do to the age of the program, a change report would not give sufficient information as to changes made. No records are changed other than date paid. All changes are done as additions only. If a change is made, it is done by abating the old record and adding a new record reflecting the entire new amount. Both records are coded as to the action and remain in the system and backed up by hard copies of the transaction.
- *B. Partial payments will no longer be retained.*
- C. The County Collector indicated that additions and abatements are prepared by the County Assessor and are now given to the County Clerk.

The County Commission indicated they will ensure that additions and abatements are made to the tax books and approved more frequently than is currently being done.

# 6. Prosecuting Attorney's Controls and Procedures

The Prosecuting Attorney received approximately \$12,000 in restitution and bad check fees in 2003. Accounting duties should be segregated, monies in an old bank account should be

identified and disbursed, and procedures for monitoring unpaid restitution should be improved.

A. Accounting duties are not adequately segregated. One clerk is responsible for receiving and recording monies, preparing deposits and transmittals, preparing checks, and preparing bank reconciliations. The Prosecuting Attorney indicated that he reviews the clerk's work when he signs the checks and he periodically reviews deposits, check-book register, and bank reconciliations; however, he does not document his reviews.

Internal controls would be improved by segregating the duties of receiving and recording monies from the duties of depositing and disbursing monies. If duties cannot be adequately segregated, at a minimum, the Prosecuting Attorney should continue to periodically review the accounting records and document his reviews. Failure to adequately segregate duties or provide a supervisory review increases the risk that errors or irregularities will not be detected in a timely manner.

- B. The current Prosecuting Attorney has custody of a bank account in which restitution and bad check fees were deposited by the prior officeholder. This account has a balance of \$3,463 (as of September 30, 2004) which has not been identified to specific cases. The current Prosecuting Attorney indicated records were not available from the prior officeholder to properly identify the amounts comprising the account balance, and he has not been able to dispose of the monies in this account through research on cases to date. The Prosecuting Attorney should continue to attempt to identify the monies held in the account and close the account. Any monies which remain unclaimed or unidentified should be disposed of in accordance with state law.
- C. Summary listings of court-ordered restitution owed to the Prosecuting Attorney are not prepared, and monitoring procedures related to unpaid restitution should be improved. While a ledger sheet is prepared for each restitution case which includes the amounts owed, received, and paid out to the victim, a summary list would provide a better means to monitor all unpaid amounts. Upon our request, the Prosecuting Attorney prepared a listing as of October 2004 of all unpaid restitution, which totaled approximately \$55,000. Approximately \$29,000 of unpaid restitution pertained to cases which have had no payments since 2002. The Prosecuting Attorney indicated that some of this money is owed from defendants who are in correctional facilities, and therefore, the related amounts are uncollectible.

Complete and accurate listings of unpaid court-ordered restitution would allow the Prosecuting Attorney to more easily review the amounts due and to take appropriate steps to ensure amounts owed are collected or to determine if amounts are uncollectible.

# **WE RECOMMEND** the Prosecuting Attorney:

- A. Adequately segregate accounting duties or perform and document reviews of the accounting records and bank reconciliations.
- B. Attempt to identify the monies held in the old bank account, dispose of unidentified and unclaimed monies in accordance with state law, and close the account.
- C. Periodically prepare listings of unpaid court-ordered restitution, and adopt procedures to periodically follow up on unpaid amounts. The Prosecuting Attorney should also consider reviewing unpaid amounts with the applicable judges and obtaining court approval to write off amounts deemed uncollectible.

# **AUDITEE'S RESPONSE**

- A. With one person as my clerical staff, there is no way to further segregate duties. Records are periodically reviewed by the Prosecuting Attorney already, and we will document that to help show controls that are already implemented.
- B. Efforts have been undertaken to identify the monies in the old bank account. We will continue this effort and dispose of the unclaimed monies in accordance with state law.
- C. Our office reviews unpaid restitution figures in connection with persons placed on probation. When the probation is revoked, or otherwise ended, the remaining amounts that are unpaid are considered uncollectible and we will close them out.

# 7. Health Center's Controls and Procedures

The budgets do not include all available resources and financial statements are not published as required by state law.

A. The Health Center's budgets do not include all available resources. The budgets include an amount in receipts classified as "carry over", which is a plugged amount to make budgeted receipts agree to budgeted disbursements. The "carry over" amounts do not include the entire balance of the Health Center's bank accounts, and therefore, the budgets to not reflect all resources available to the Health Center board. (The audited financial statements have been adjusted to include the actual balances of the bank accounts.)

To be of maximum assistance as a planning tool and to adequately inform the public, the budgets should include all beginning available resources and projected ending fund balances.

B. The county's annual published financial statements do not include the financial activity of the Health Center Fund. Health Center personnel indicated they did not believe they were required to include the Health Center Fund in the published financial statements.

Sections 50.800 and 50.810, RSMo 2000, provide that the financial statements are required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for all county funds. The statutes also require detailed lists of disbursements by vendor. For the published financial statements to adequately inform the citizens of the Health Center's financial activities, all monies received and disbursed by the Health Center should be included.

# **WE RECOMMEND** the Health Center Board:

- A. Include all beginning available resources and projected ending fund balances on the budgets.
- B. Ensure financial information for the Health Center Fund is properly reported in the annual published financial statements as required by state law.

# **AUDITEE'S RESPONSE**

- A. We are now using the budget forms supplied by the State Auditor which includes beginning and ending balances.
- *B.* We will comply with the recommendation and publish annual financial statements.

# 8. Schedule of Expenditures of Federal Awards

Procedures to prepare schedules of expenditures of federal awards should be improved to ensure the accuracy of these schedules. Section .310(b) of Circular A133, *Audits of States, Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as part of the annual budget.

The County Clerk's and Health Center Administrator's procedures to track federal financial assistance for preparation of the SEFA should be improved. The County Clerk and Health Center Administrator prepared SEFA's for the years ended December 31, 2003 and 2002; however, the county under-reported approximately \$28,049 in federal grant monies expended during the two years, and the Health Center under-reported approximately \$14,097 in federal grant monies expended in 2003. The county did not report disaster relief funds, grant funds received from Macon County, and the value of property received from surplus property. The Health Center Administrator did not report the value of vaccines received. Compilation of

the SEFA requires consulting county and health center financial records and requesting information from other departments and/or officials.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

Similar conditions were noted in prior reports.

<u>WE AGAIN RECOMMEND</u> the County Clerk and Health Center Administrator adopt procedures to ensure complete and accurate schedules of expenditures of federal awards are prepared and submitted to the State Auditor's Office as part of the annual budget.

# **AUDITEE'S REPONSE**

The County Clerk will adopt a procedure to properly track federal awards that are received into Shelby County and report the information on the SEFA schedule. However, to completely implement this procedure, state and federal agencies need to properly identify and communicate that these monies are federal in order for a procedure to be effective.

The Health Center indicated they have not always received information from the state regarding vaccine values and have had to request this information from the state.

Follow-Up on Prior Audit Findings

# SHELBY COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Shelby County, Missouri, on findings in the Management Advisory Report (MAR) of the audit report issued for the two years ended December 31, 1999. The prior recommendations which have not been implemented, but are considered significant, are repeated in the current MAR. Although the remaining unimplemented recommendations are not repeated, the county should consider implementing those recommendations.

# 1. <u>County Procedures</u>

- A. Bids were not always solicited, nor was bid documentation always retained for various purchases of used equipment made by the county.
- B. For projects to design the Emergency 911 office and the courthouse basement, the county did not document that at least three engineering firms were considered, had no contract documenting the rights and obligations of each party, and did not provide to the engineering firm estimates of the amount the county was able to spend on the projects.

# Recommendation:

# The County Commission:

- A. Solicit bids for all items in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the County Clerk. If bids cannot be obtained and sole source procurement is necessary, the County Commission minutes should reflect the circumstances.
- B. Consider the amount the county can afford for construction and renovation projects prior to incurring expenditures related to the projects. In addition, the County Commission should enter into written agreements for all services which specify all duties to be performed and the compensation to be paid.

#### Status:

A. Partially implemented. Improvements were noted in the county's bidding procedures. For most purchases reviewed, bids were received and bid awards were documented in the commission minutes; however, sole source procurements were not always documented and the county was unable to locate bids received for one purchase. Although not repeated in the current MAR, our recommendation remains as stated above.

#### B. Implemented.

# 2. General Fixed Assets Records and Procedures

The county's general fixed asset records were not complete and the county did not have written policies regarding the handling and accounting for general fixed assets. In addition, tags were not affixed to some county property.

# Recommendation:

The County Commission establish a written policy related to the handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, establish standardized forms and reports to be used, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition all general fixed assets should be tagged or identified as county-owned property.

#### Status:

Not implemented. See MAR finding number 4.

# 3. Public Administrator Controls and Procedures

- A. The Public Administrator did not maintain accurate records of transactions related to a promissory note receivable for one of his wards, which resulted in an annual settlement understatement of the receivable balance of approximately \$38,600.
- B. There was no written policy identifying the types of fees to be received by the Public Administrator or transactions which should be considered income. In addition, fees were inconsistently charged on various types of transactions and the calculation of some fees was not provided to the Probate Court.
- C. Investment ledgers were not maintained for the estates that had significant amounts of invested funds and, as a result, some annual settlements did not accurately present investment transactions or balances.
- D. One annual settlement presented multiple bank and CD balances as a total instead of reporting them separately. State law requires a detailed listing of all accounts on the annual settlement.

#### Recommendation:

# The Public Administrator:

- A. Ensure the balance on the promissory note is accurately stated on the annual settlement. In addition, the balance due should be calculated based upon the terms provided in the promissory note.
- B. Work with the Associate Circuit Judge to develop written guidelines that identify receipts or transactions on which fees are to be paid. Written documentation of fee calculations should be prepared and maintained for all annual settlements and submitted to the Probate Court for approval. In addition, the Associate Circuit Judge should evaluate the inconsistencies noted above and determine if reimbursement of fees is due from the Public Administrator to the estates.
- C. Maintain an investment ledger for estates having invested funds.
- D. Include on annual settlements a detailed listing of all bank accounts in which estate funds are held and their respective balances, as required by state law.

# Status:

A, C,

- & D. Implemented.
- B. Not implemented. While a written policy has not been established, the Probate Judge's approval is required for all fees. Although not repeated in the current MAR, our recommendation remains as stated above.

# 4. County Collector Controls and Procedures

- A. Change reports, which reflect changes to tax records, were not generated by the County Collector.
- B. Partial payments received by check were cashed and retained in the County Collector's vault until full payment was received. These payments were not recorded or logged, but were kept in separate envelopes with the taxpayers' names written on the envelopes.
- C. Additions and abatements of property taxes were not approved by the County Commission.

#### Recommendation:

# The County Collector:

- A. And County Commission review the possibility of generating periodic change reports. In addition, the change reports should be reviewed by an independent party and any unusual items investigated.
- B. Record all monies received for partial payments and deposit intact daily. The record of partial payments could be used to identify the reconciled bank balance.
- C. And County Commission ensure addition and abatement court orders be prepared by the Assessor's office, retained by the County Clerk, and periodically reconciled to the property tax books. The County Commission should review and approve all additions and abatements on a timely basis and the County Clerk should make the necessary changes to the tax books.

# Status:

A&B. Not implemented. See MAR finding number 5.

C. Partially implemented. While the County Commission receives for their approval detailed listings of all property tax abatements and outlawed taxes and the total of all additions, these listings are provided only at the end of the tax year. See MAR finding number 5.

STATISTICAL SECTION

History, Organization, and Statistical Information

# SHELBY COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1835, the county of Shelby was named after Isaac Shelby, a Governor of Kentucky and Revolutionary War soldier. Shelby County is a county-organized, third-class county and is part of the Forty-First Judicial Circuit. The county seat is Shelbyville.

Shelby County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining approximately 605 miles of county roads and 70 county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens.

The county's population was 7,826 in 1980 and 6,799 in 2000. The following chart shows the county's change in assessed valuation since 1980:

|                        |    | Year Ended December 31, |                           |      |      |      |      |  |  |  |
|------------------------|----|-------------------------|---------------------------|------|------|------|------|--|--|--|
|                        |    | 2003                    | 2003 2002 2001 2000 1985* |      |      |      |      |  |  |  |
|                        | -  |                         | (in millions)             |      |      |      |      |  |  |  |
| Real estate            | \$ | 47.6                    | 46.4                      | 45.4 | 43.2 | 34.9 | 20.4 |  |  |  |
| Personal property      |    | 21.7                    | 21.0                      | 21.1 | 19.9 | 10.2 | 8.4  |  |  |  |
| Railroad and utilities | _  | 6.2                     | 6.8                       | 6.7  | 7.2  | 7.0  | 3.4  |  |  |  |
| Total                  | \$ | 75.5                    | 74.2                      | 73.2 | 70.3 | 52.1 | 32.2 |  |  |  |

<sup>\*</sup> First year of statewide reassessment.

Shelby County's property tax rates per \$100 of assessed valuations were as follows:

|                                | <br>Year Ended December 31, |       |       |       |  |  |  |  |  |
|--------------------------------|-----------------------------|-------|-------|-------|--|--|--|--|--|
|                                | 2003 2002 2001 2000         |       |       |       |  |  |  |  |  |

<sup>\*</sup> The county retains all tax proceeds from areas not within road districts. The county has one road district that receives four-fifths of the tax collections from property within this district, and the Special Road and Bridge Fund retains one-fifth.

<sup>\*\*</sup> Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county bills and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

|                                  |    | Year Ended February 28 (29), |           |           |           |  |

The Health Center Board in January 2001, organized Shelby County Health Promoters, Inc., a not-for-profit corporation for the purpose of obtaining debt related to the acquisition of land and services for a new health center location and building. In October 2001, the Health Center entered into a \$480,767 lease agreement with Shelby County Health Promoters, Inc., to purchase the land and finance the building of the new health center facility. This agreement was amended in August 2002, to include an increase of \$32,356 to the lease amount due to building changes. At December 31, 2003, the principal balance of the lease was \$404,292. The interest rate is 5.79% and payment of \$69,252 is required annually until 2006, and then payment of \$61,490 is required annually for the remaining five years. If the health center makes the minimum lease payments, the lease will be paid off in 2011.
