Thank you for your inquiry.

I am not entirely sure what additional information you require as the way the the description reads it is clear to me that I have more than 9 years of experience in "demography, statistics, economics, geography, or research." Which includes "work in modeling, analysis, forecasting, and project management, and utilizing geographic information systems (GIS), database, and statistical software applications"

Perhaps there is some confusion as to how the description is written, in which case I would refer you to the following [link](#) for assistance.

Please let me know exactly what you need and I am happy to provide it.

Respectfully,

Kyle Rieman
